LIVING LESBIAN ARCHIVE

MARCH MADNESS

2025 Volume .5.

Living Lesbian Archvive was founded by Elysia Colon (23) and Tajh Martin (21) in November 2024, with the first meeting taking place on November 23rd at Juke Bar in Bushwick. The meeting included people gathering to work on zine pages (folded construction paper) to be included in the monthly issue of LLA. The work mostly included collaging.

The founders were inspired to create this social club in response to desires for a stronger/larger Black lesbian community. Elysia and Tajh decided to incorporate their own love for arts and crafts with the creation of a space dedicated to Black lesbians outside of the club/party scene. Seeing how underrepresented Black lesbians are in society, it was further decided that this arts and crafts project should contribute to some form of documentation of Black lesbian lives and highlighting the beauty of said identity.

Spring

Has Sprung!!

And I am the graziest and most sane I have ever been. But the rain has persisted and I am so so sad.

Garden of France

Prince and peasant, milkmaid and falconer, countess and cavalier: Royal France lives on in this map embellished with figures taken from tapestries of that era. Artist Janet Fitch Sewall re-created the life of court and countryside after a pilgrimage to the chateaus.

Sometimes you just need to finish something, even if it isn't good...

Try it again later if you want... just finish it...
